The following is an examiner's statement of reasons for allowance: Wildburg et al is the closest prior art of record. This reference discloses adhesive compositions comprising polymers from unsaturated monomers, a starch degradation product and one or more fillers selected from a group which comprises calcium carbonate and slate flour. The reference offers no guidance as to the selection. The reference fails to teach or reasonably suggest the further incorporation of a liquid polyester or an epoxidized oil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F from 10:00 to 6:00.
